Scrapghan Tips

- If you're having trouble getting the sizing right, remember that it's easier to adjust a square that's too small than one that's too big.
- If a square comes out too small you can add an additional round for the border, go up a hook size, and/or steam block and stretch the square to the size you want.
- The edges might curl. This can be fixed with some steam blocking. It won't be noticeable after sewing.
- Each square has at least 2 rounds of border. For the last round of the border I used the same color for each square (the dark gray). This is the same color used for the sewing.
- The squares will be released in sewing order, starting with the bottom left. I left a long end for sewing on each of the squares. The long end is approximately twice the length of one side.
- Each square does not need the same number of stitches for the border.
