SHAPING THE PUMPKIN

Thread the tail onto a yarn needle and sew the top closed. Insert it through the center top of the pumpkin, bringing it out through the center bottom. Pull the yarn snug to create a dip in the center. Wrap the yarn around the outside of the pumpkin and insert the needle back through the top and out the bottom again, pulling tight to form a ridge. Repeat this process evenly around the pumpkin (about 6–8 times, depending on the look you want). This will create the classic pumpkin ridges and give it a nice, squatty shape. Tie off and weave in the end to secure.

And you're done! I hope you love this pumpkin. Please share a pic of your finished product. I'd love to see it! If you have any questions, please don't hesitate to ask!
