Fasten off. Leave a long end for sewing.

Weave in the first end.

SEWING

1. Lay the headband flat with the right side facing up and the two short ends facing each other.
2. Fold each short end in half lengthwise, bringing the top edge down to meet the bottom edge.
3. Slide the folded ends together, overlapping them so the four layers alternate (like interlocking two C shapes).
4. Make sure all four layers are lined up evenly along the short edge.
5. Using a yarn needle and the long end, sew through all four layers to secure the ends together.
6. Fasten off and weave in the ends.
7. Turn the headband right side out and adjust the fabric to reveal the twist in the front.

Finishing + Care

BLOCKING

Lightly dampen your project, shape it to size, and allow it to dry completely before use. Blocking helps give your finished project a polished look by evening out stitches and improving the overall shape, drape, and keeps the edges from curling.

WASHING

To keep your crochet project looking its best, wash gently using cool water and mild detergent. Hand washing is recommended for most handmade items to help preserve the stitches and shape.

DRYING

After washing, gently remove excess water and lay the project flat to dry, out of direct sunlight or heat. Avoid wringing or hanging garments, as this may stretch the fabric out of shape.

GENERAL CARE

Proper care will help your handmade project last for years to come. Store your item folded when possible and keep it away from rough surfaces that may snag the stitches. Over time, your project may benefit from light re-blocking after washing to help restore its shape.
